Environmental Engineering Department News

Texas A&M University-Kingsville

Special Points of interest:
- Students on Summer Internships
- Students Awarded
- New EIT’s
- A&WMA Student Chapter
- Commencement
- Undergrad News

Inside this Issue:
- Dissertation/Thesis Presentations
- Alumni News
- Faculty/Staff News
- ISEE News
- Upcoming Events

Student Achievements

Students busy with summer internships are Iris Facundo Torres (BS pictured right) working with U.S. EPA Office of Environmental Protection Agency in Washington D.C., Gehan Flanders (MS) working with U.S. EPA in Washington D.C., Kai Williams (BS) working with U.S. EPA-Region 6 in Dallas, TX, Nereyda Facundo Torres (PhD) working with CITGO in Corpus Christi, TX and Lisa McLaughlin working with EPA in Alaska.

Xiangting Hou (PhD) took 1st Place at the First Annual Graduate Students Posters Competition held by the TAMUK College of Engineering. April 24, 2012

Nereyda Facundo Torres (PhD pictured right) was awarded 1st Place for Master Thesis Award by the Air & Waste Management Association. She was recognized at the 105th Annual Conference & Exhibition in San Antonio, TX on June 20, 2012.

Sagar Chitre (MS pictured right) was awarded 2nd Place Master’s level at the Student Poster Competition of the 105th Annual Conference & Exhibition. The poster titled “Bench Scale Quantification of Water Vapor Adsorption Capacity of Biologically Active Soil and Woodchips”, Co-author of the poster is Sergio Santos (PhD).

Congratulations to Vinod Balakrishnan (MS) and Xingting Hou (PhD) for passing the FE in April.

The Student Organization Forum Committee (SOFC) met and awarded the A&WMA Student Chapter $1,250 for the next year funding. This is more than they have ever been awarded before!

Commencement

May 11, 2012 was a big day for many Environmental Engineering students. Graduating with a Bachelor of Science was Natalie A. Rocha, Master of Science were Oluyinka H. Elegbede, Waldy Fernandez-Lopez, Cesar G. Moran, Alexander J. Murillo Rada, and Doctor of Philosophy were Martin Alcala Jr., and Xubin Pan. Congratulations All!!

Undergrad News

Hoggie Days are in full swing and our enrollment is increasing! Welcome Daniela Aguilar, Hunter Balzen, Alisa Bautista, Eric Harwell, Erin Hoelscher, Ruben Martinez, Iniobong Nkanta, Christina Saldivar, Nicholas Salyers, and Jayne Wilson who will be joining the Environmental Engineering Department this Fall semester! There are still a few Hoggie Days available so check on-line at http://www.tamuk.edu/hoggiedays/index.html to see the latest updates.
Dissertation / Thesis / Project Presentations

Prajay Gor (PhD) successfully defended his Dissertation Proposal and Yuan Yuan (PhD) successfully defended her Dissertation. May 2012.

Alumni News

Vidyasagar Sunkavalli (MS, Class of 2011) is an Environmental Engineer with Southern Minnesota Beet Sugar Co-operative in Renville, Minnesota.

Juan J. Garcia (MS, Class of 2011) is an Environmental Engineer with Seadrift Coke L.P. in Victoria, TX.

Yungang C. Wang (MS, Class of 2008, pictured right) is a Berkeley Lab Postdoc in Berkeley, CA. Yungang was acknowledged in an article titled “Head of Stove-Testing Lab Wants to Clear the Air”. Please go to http://today.lbl.gov/head-of-stove-testing-lab-wants-to-clear-the-air/ and read this interesting article.

Faculty / Staff News

Drs. David Ramirez, Hongbo Su, Venkatesh Uddameri, Lee Clapp and ISEE Abel Garza participated as judges for the 2012 Annual Engineering Student Design Conference. Dr. David Ramirez received the Outstanding Research Award, Dr. Venkatesh Uddameri and Dr. Kim Jones received the Professor of the Year Award (voted by students of Env Eng), Natalie Rocha (BS) received the Outstanding Senior from Env Eng Award, and Denis Guleiof (BS) received the Outstanding Student from Env Eng Award. April 2012.

Dr. Alvaro Martinez organized the Environmental Protection Agency (EPA) The Importance of Green Infrastructure Webinar. April 30, 2012.

Dr. David Ramirez and Dr. Lee Clapp traveled to the University of Houston to present research proposals for approximately $300K in external funding to the Coastal Impacts Technology Program, Technology Roadmapping Workshop. May 15, 2012.

Dr. Jianhong Ren initiated the IGERT Webinar between TAMU-K and TAMU-CC. May 16, 2012.

Dr. Lee Clapp traveled to Austin, TX to participate in the TCEQ “Brackish Groundwater Desalination Advisory Work Group” meeting. May 18, 2012.

The External Advisory Board for the BS Program in Environmental Engineering held their first meeting May 31, 2012.

Dr. Kuo-Jen Liao had a proposal awarded entitled “Air Quality Management for the State of Maryland” for $40,000. Dr. Liao will assist the State of Maryland to develop effective air quality state implementation plans to protect human health in the Mid-Atlantic region.

Institute for Sustainable Energy and the Environment (ISEE) News

Dr. Kim Jones traveled to San Antonio, TX to participate in the NSF Research Coordination Network kick-off charette for Science, Engineering and Education for Sustainability on Climate, Energy, Environment and Engagement in Semiarid Regions (CE3SAR). May 23-24, 2012

Javier Guerrero and Augusto Sanchez organized the following webinars:

- Public Infrastructure Inspector Study Guild 2 (May 7, Edinburg, TX),
- Public Infrastructure Inspector Study Guild 3 (May 14, San Benito, TX)
- Curve Number & Vegetative Techniques to Manage Stormwater Runoff Sustainability (May 15, Weslaco, TX).

Tosin Oyelakin (PhD), Rashida Sucky, Adeniyi Adetayo (MS) and Teresa Perez (BS) attended a Texas Stream Team “Core Water Quality Monitor Training”; that certified them to sample stormwater for the TCEQ Low Impact Development grant projects at the Estero Llano Grande State Park in Weslaco, TX. June 16, 2012.

CREST-RESSACA

The Center for Research Excellence in Science and Technology-Research on Environmental Sustainability in Semi-Arid Coastal Areas (CREST-RESSACA) at Texas A&M University-Kingsville sponsored a conference which focused on Sustainability Energy and Environment Issues. The conference provided a great platform to showcase faculty, students, and research sponsored by the National Science Foundation CREST grant. The conference was held April 26—April 27, 2012 at the InterContinental Hotel in Houston, TX. The Student Poster Competition was very successful with a total of 40 posters competing from various Universities and Community Colleges. Students awarded were Joseph Amaya (PhD) 2nd Place, Nereyda Facundo (PhD) HARC 3rd Place, Natalie Rocha and Jonathan Gorman (BS) 3rd Place. Dr. Kalliat T. Valsaraj, the Associate Vice Chancellor for Research at Louisiana State University was the Keynote Speaker. It was great to see Alumni Sridhar Dadi, David Salinas, and Ivan Santoyo there.

Upcoming Events

2012 Summer Camps — 3 camps are current scheduled for July:

YESTexas Summer Camp (July 9-13, 2012)
- Dr. Alvaro Martinez to speak on Environmental Engineering
- Groundwater Quality, led by Dr. Lee Clapp
- Air Pollutant Measurements, led by Dr. David Ramirez
- Students Participating: Nima Ghahremani (PhD), Tanvir Khan and Sagar Chitre (MS).

GEMS Summer Camp (July 16-20, 2012)
- Dr. Alvaro Martinez to speak on Environmental Engineering
- Solar Energy, led by Dr. David Ramirez
- Groundwater Quality, led by Dr. Lee Clapp
- Students Participating: Nima Ghahremani and Yuan Yuan (PhD), and Ana Cardona (BS).

ESF Summer Camp (July 23-27, 2012)
- Dr. Alvaro Martinez to speak on Environmental Engineering
- Air Quality, led by Dr. Alvaro Martinez
- Student Participating: Prajay Gor (PhD).

EPA Undergraduate Fellowship on Border Air Pollution Issues personnel: Drs Alvaro Martinez, David Ramirez, Kuo-Jen Lia and Rajat Sethi, Prajay Gor (PhD), and BS students Iris Facundo, Gisela Alfaro, Procopio Herrera, Azia Hinojosa, Paige McIntyre, Andrea Meyer, Ariel Ramirez, and Juan Rios will be traveling to Montgomery, Alabama to visit the National Air and Radiation Environmental Laboratory (NAREL). August 12-14, 2012.
