Students can now make their own tutoring appointments!

Visit [javsuccesstamuk.edu](http://javsuccesstamuk.edu)

On the JNET log in page, type in your credentials

You will use the appointment search module(s) to find an appointment. It's only 5 easy steps!

Step 1: navigate to the search module relevant to your needs.

NOTE: All students will have a search widget labeled "Search for an Appointment."

Search for an Appointment

Find first available immediately

Select a Course: Choose a subject

And

Select a type of support: Choose a service / reason

Search

Step 2: Select your course and the reason **TUTORING**, then click "Search."

Step 3: From the search results, select the day and time that works best for you.

A few tips:

- Review the PAAC Tutoring Schedule at <https://www.tamuk.edu/studentsuccess/PAAC/index.html> to view when tutors are scheduled
- The search results are color coded: **yellow** represents 'group' sessions, **green** represents 'one-on-one' sessions, and **blue** represents 'drop-in' times.
- Click the breadcrumb button [...] on the top-right of your results to narrow to certain days, locations, types, etc.
- Only available appointment times show up in your results-- however, if you walk away from your search results for more than a few minutes, be sure to refresh before booking!
- If you accidentally schedule an appointment, be sure you cancel it so that it will be available to others.

If NONE of the times listed work for you, or you don't get any search results, click the "Unable to find an appointment" button at the bottom of the search results screen. A staff member will get back with you, usually within 1 day.

Step 4: Review the appointment details.

If desired and available, you may be able to select a checkbox to make the appointment weekly recurring, online or in-person, or change the duration.

NOTE: Each center and/or staff person may have different options, so view the appointment details carefully to make sure you're scheduling the appointment you want!

Step 5: Click "Save" to book the appointment.

TracCloud will then email you your appointment the session details (and a calendar invite to quickly and easily add it to your phone or Outlook calendar). Your appointment will also be listed in on your dashboard calendar.
