

**Frank H. Dotterweich**  
**College of Engineering**

**Department of Electrical  
Engineering and Computer Science**

# Fall 2020 CoE and EECS Virtual Distinguished Lecture Series

**Deep Convolutional Neural Networks for Access Point Identification and Association**  
**October 14**

**Kaushik Chowdhury**

*Professor, Presidential Early Career Award for Scientists and Engineers (2017)*  
Northeastern University

**Opportunities and Challenges of Speech-Based IoT**

**October 28**

**Chris Poellabauer**

*Professor, NSF Career Award (2006), Fulbright Scholar (2018-2019)*  
University of Notre Dame

**Building Data-Centric Security into the Internet to Support Edge Applications**

**November 4**

**Lan Wang**

*Professor, CS Dept. Chair, Univ. Memphis Alumni Association Distinguished Research Award (2019)*  
University of Memphis

**On Optimal Partitioning and Scheduling of DNNs in Edge Networks**

**November 25**

**Jie Wu**

*Professor, IEEE Fellow; AAAS Fellow; Director, International Affairs, College of Science and Technology*  
Temple University

**Light-Weight Smart System Security**

**December 2**

**Xiuzhen Cheng**

*Professor, IEEE Fellow*  
George Washington University

**Wednesday: 11:00 am – 12:00 pm**

**Venue: Online**

**Founding Coordinator: Habib M. Ammari,**  
**Ph.D. (CSE), Ph.D. (CS)**

**Phone: 361-593-4219**

**Email: [Habib.Ammari@tamuk.edu](mailto:Habib.Ammari@tamuk.edu)**
