Presentation by Rolando R. Garza, Ed.D.

Director of Digital Education at Texas A&M University-Kingsville

EDUCATION: TRANSFORMING LEARNING AT TEXAS A&M **UNIVERSITY-KINGSVILLE**

O1 O2 O3 O4
AI TAMUS Blackboard Next Steps

TOPIC A

What is Artificial Intelligence (AI)
Generative

Generative artificial intelligence (AI) describes algorithms (such as ChatGPT) that can be used to create new content, including audio, code, images, text, simulations, and videos.

TOPIC 02

Texas A&M University System – Office of Academic Affairs

TAMUK FALL COHORT

- Campus Email -October 12, 2023
- Course Takers 42
- 8 Completed Digital Badge
- 34 On-Going

Course Features

- Fully-online No need to show up in a specific location to learn
- Self-paced and self-directed Learners have access to all content and updates for one year. Engage with whichever content interests you first.
- Asynchronous Work at your own time. No need to show up at a specific date and time.
- Exemplary course design developed by talented instructional designers and educational developers, the course has clear and measurable learning outcomes, transparent assignment design, and plenty of practice opportunities. We model what we preach!
- Eight modules. Total time to complete for an engaged learner is between 10 to 15 hours.
- Complete one assignment at the end of each module to earn an Al Explorer digital badge.

Course Goals

- Learn about AI and its implications for teaching and learning in higher education especially those relating to academic integrity;
- Consider examples (good and bad) of how to redesign courses for AI at AU;
- Experiment with AI tools, redesign assignments, and get feedback;
- Engage in conversations about your thinking on topics related to AI in the college classroom;
- Access a (growing and evolving) repository of research on teaching with AI;
- Engage your department colleagues in the conversation by modeling best practices and sharing your learning to ensure students in your program have a consistent, comparable learning experience no matter who is leading the class.

Teaching with AI Auburn Online Course - Spring 2024 Interest Form

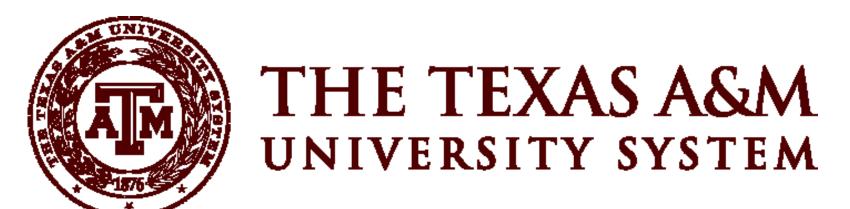

Governor Abbott Appoints Four To Artificial Intelligence Advisory Council

February 23, 2024 | Austin, Texas | Appointment

Governor Greg Abbott has appointed John Bash, Mark Stone, Ph.D., Dean Teffer, Ph.D., and Angela Wilkins, Ph.D. to the Artificial Intelligence (AI) Advisory Council for terms set to expire at the pleasure of the Governor. The Council studies and monitors artificial intelligence systems developed, employed, or procured by state agencies.

Mark Stone, Ph.D. CIO

Topic 3

Blackboard Learn Ultra AI Design Assistant

Blackboard Learn Ultra gets a major AI upgrade thanks to a collaboration between Anthology and Microsoft. Instructors can now leverage the power of AI to streamline course creation, including building structures, assessments, rubrics, and more – all within the familiar Blackboard Learn **Ultra** interface.

Blackboard Learn **Ultra AI Design Assistant** Pilot Users Fall 2024 (**Ultra Course Development Summer 2024**)
